

SEA ~~N~~X~~T~~ 
ELITE

THE ~~N~~X~~T~~ GENERATION OF WATER TOYS

ELITE DESIGN

ALL CARBON FIBER

Provides not only a high end finish, but also a light weight structure with high rigidity and a true French style which has been missing in the nautical sector for too long.

FEATURES

COLOR OPTIONS

BLUE CARBON

RED CARBON

GREEN CARBON

BLACK CARBON

DIMENSIONS

Dual motor propulsion for hydrodynamics, maneuverability, and a top speed of 13 mph.

At 50 lb, Elite is easy to move around and can be launched with just one hand.

Max. Run Time
(Eco mode)

120 min

Enjoy 4 speed modes, with up to 120 min in Eco mode or 20 min in Shark mode.

Max. Depth

130 ft

Max depth setting can be adjusted in increments on the display screen.

GPS NAVIGATION

See your position on the map as well as the starting position where the unit was just turned on.

The buoyancy and weight distribution of Elite has been designed for a natural diving experience, so you can enjoy your moments underwater without straining to keep the unit from pointing to the surface.

SPECIFICATIONS

Motor	Dual Motor 2x2,2 kW
Max. Thrust	(up to) 670 N
Top Speed	(up to) 13 mph
Speed Modes	(Shark, Sport, Cruise, Eco)
Battery type	Li-ion 48V
Run Time	max: 2h* min: 37min**
Max. Diving Depth	40 m
Charger	Variable
Display	LCD HD 5,5" 13cm
Full LED Signature	
Weight	50 lb
Size (LxWxH)	98 x 50 x 28 cm

*Eco mode **Shark mode 20+17min Eco mode

FUN, BUT TECHNICAL, FACT:

SeaNXT Elite's battery solves a major problem that riders of other scooters encounter. High-power motors require high electrical currents to run properly. Battery cells which have a low current discharge rating (like in other scooters) can only deliver these high currents for a short period of time before they decline in performance (sag). SeaNXT Elite's battery is produced with high-performance cells that will operate the motor at full capacity for extended periods of time, meaning you as a rider won't experience a steep drop-off in speed while you're out on the water.

ACCESSORIES INCLUDED

TRANSPORT CASE

Each SeaNXT Elite is delivered in a fireproof aluminum transport case for your security.

ADJUSTABLE CHARGER FROM SLOW TO FAST

The charger offers an adjustable output ranging between 1A and 12A, so you only need one charger for both slow and fast charging.

SEA NXT

THE NEXT GENERATION OF WATER TOYS

Exclusively Distributed by BLU3 (a subsidiary of Brownie's Marine Group)
in North/South America & Caribbean with a 2-Year Limited Warranty
